FAMER WILLINGNESS TO PAY FOR QUALITY COWPEA SEEDS—BURKINA FASO 2017 SURVEY

INSTRUCTIONS: Please ask to speak to the person primarily responsible for COWPEA production decisions. If this person is not available, end the interview. If this person is available, read the CONSENT STATEMENT and if he/she agrees to be interviewed, begin the interview starting on question X7.).

CONSENT STATEMENT

My name is _____. I am assisting the Institute for Environment and Agricultural Research (INERA) from Burkina Faso and Michigan State University (MSU) from the U.S. in conducting a study to document farmers’ willingness to pay for different types of cowpea seeds (WTP).

As part of the WTP study, we will be conducting an auction of cowpea seeds in which you will be asked to bid a price you are willing to pay for one kg of cowpea seed of different types. We will explain the rules of this game in detail, and will play a practice game before we start the seed bidding game. Your participation in this game will not involve any out of pocket cost for you. Your participation is voluntary. Your refusal to participate or to withdraw from the study carries no penalty or loss of any benefits. The results of your participation in the game will be used to document what cowpea growers are willing to pay for different types of cowpea seed, when available; which will help us to generate recommendations that may benefit cowpea production in this region.

The interview and experiments will take approximately **45 minutes**. Your participation is **voluntary**. Your **refusal to participate** or to withdraw from the study carries **no penalty** or loss of any benefits. You are **free to not answer any** of the questions I will ask. However, your answers will be valuable to assess the constraints to cowpea production in this country. All information provided by you will be **kept confidential**. Your privacy will be protected to the maximum extent allowable by law.

If you have any **questions or concerns** about your participation in this study, please contact Professor XYZ, Michigan State University, East Lansing, MI 48824, USA, phone ABC, e-mail PQR or, Dr. MNO at INERA, Tel: FGH.

By answering my questions, you indicate your willingness to **voluntarily** participate in the study.

NOTES

**Sentences in “italics” are instructions for the enumerator*

*ID = Identification

*sp = Specify / provide details

*HH = Household

*NGO = Non-government Organization

X0. Name of the enumerator completing this survey: _____ X1. Date: ____dd ____mm ____yyyy

X. Respondent Identification and information

X2. First read the Consent Statement. Proceed if the farmer consents to be interviewed. Farmer consented:		<input type="checkbox"/> 1-Yes	<input type="checkbox"/> 2-No
X7. Are you the main (or one of the main) decision maker in your household for Cowpea cultivation and production practices ?		<input type="checkbox"/> 1-Yes	<input type="checkbox"/> 2-No
X8. Gender	<input type="checkbox"/> 1-Male <input type="checkbox"/> 2-Female	X9. Age	X10. Number of years of formal education completed?
X11. Can you read and write in French or other language ? [1] No [2] Yes, French only [3] Yes, other language [4] Yes, French and other language			
X12. Mobile phone number (999=does not have a mobile phone)			

X3. Village Name: _____ X4. Village ID: _____ X5. Farmer Name: _____ X6. ID: _____

A. INFORMATION ABOUT THE HOUSEHOLD AND FARMING PRACTICES

A1. Your relationship to head of HH? [1] HH head <A4 [2] Spouse <A4 [3] Son/daughter [4] Other (specify)	A2. What is the gender of the Head of this HH? [1] Male [2] Female	A3. Age of the Head of this HH?	A4. In what languages can the male head/spouse read and write? [1] None or no male head [2] French only [3] Other language (regardless of French)	A5. Has the female head/spouse completed first grade? [1] Yes [2] No	A6. # household members			A7. # household members in these age categories:				A8. Have any household members, in their main occupation in the last seven days, worked in agriculture, animal husbandry, fishing, or forestry?
					a. Total	b. Males	c. Females	a. <15	b. 15-25	c. 26-65	d. > 65	

A9. What is the farthest anyone in this household has ever travelled? (Circle one option) 0-never left this village; 1-a village/town in this district; 2-a village/town in other parts of Burkina; 4-another country in Africa; 5-Middle east 6-US/Canada/Australia/Europe; 7-Other (specify)

A10. Have you ever produced cowpea seeds? 1= Yes 2= No	A11. If yes to A10 when was the last time you produced cowpea seeds? YYYY	A12. What type of cowpea seeds did you produce? [1] certified seeds [2] Quality declared seeds [99] Other (specify)

A13. Do you regularly purchase or have you ever purchased cowpea seed (not grain) for grain production? [1] Yes, regularly purchase [2] Yes, purchase occasionally [3] No, never purchase 'seed' <A21 [77] Don't know what seed is <A21	A14. What is the highest price per kg you have ever paid for cowpea seed for grain production? CFA/kg	A15. When was the last time you purchased cowpea seed for grain production? YYYY	A16. What was the price per kg you paid for acquiring this seed last time? CFA/kg	A17. Total quantity of seed purchased? kg	A18. Source of the last purchased seed for grain production 1-farmer from local community 2-ASK 3-other farmer organization 4- seed vendor in the market 5-Input dealer 6-Seed company 7 own seed production 99-Other (specify)	A19. What type of seed was it? 1-Certified 2-non-certified but came in a package with labeling (QDS) 3-Came with no label or package 77-don't know/remember	A20. Name of the seed variety purchased 77-don't know / remember	A21. In a normal year, what percent (%) of your cowpea harvest do you sell? Record the response on a scale of 0 to 100 (approx. value is fine)	A22. In a normal year, what percent (%) of your HH income comes from cowpea sales?

Which are the two most important crops on your household's farm in terms of... [1] maize [2] millet [3] sorghum [4] rice [5] Cowpea [6] groundnut [7] soybean [8] cotton [9] vegetables [10] fruit crops [99] Other (sp.)				A26. Total amount of land area owned by your HH?	A27. Units for land area [1] Acres [2] Hectares [99] Other (specify)	A28. Using same units, total land area cultivated with all crops during the last production season (2016)?	A29. Total number of field plots (separate pieces of land) owned by the HH?	A30. Total number of field plots (separate pieces of land) planted with cowpea in the last production season (2016)?
A23. Total area planted?	A24. Purchased inputs devoted for production?		A25. Source of cash income?					
(a) 1 st (b) 2 nd	(a) 1 st (b) 2 nd	(a) 1 st (b) 2 nd						

X3. Village Name: _____ X4. Village ID: _____ X5. Farmer Name: _____ X6. ID: _____

B. INFORMATION ON COWPEA PLOTS (Enumerator, read to the farmer: For each of the cowpea FIELDS planted in the last planting season, please tell me...)

B0	B1	B2	B3	B4	B5	B6	B7	B8	B9	B10	B11
Field ID	Total area of this field?	Units [1] Acres [2] Hectares [99] Other (specify)	Was cowpea inter-cropped ? [1] Yes [2] No	What percentage of this field was planted to cowpea? <i>Record the response on a scale of 0 to 100 (approx. value is fine)</i>	Total quantity of cowpea seed planted on this field? (kg)	Total quantity of cowpea grain harvested	Units [1] Lbs [2] Kg [99] Other (specify units & weight)	Did you apply any fertilizer on this field? [1] Yes [2] No	Did you apply any chemical pesticides on this field? [1] Yes [2] No	Did you apply any bio-pesticides on this field? [1] Yes [2] No	Did you apply any other types of pest control products on this field? [1] Yes [2] No

C. INFORMATION ON COWPEA VARIETIES PLANTED IN THE LAST GROWING SEASON

C0. In the last season, how many cowpea varieties did you plant? _____ For each of these varieties, please tell me....

C1	C2	C3	C4	C5	C6	C7	C8
Variety ID	Name of the cowpea variety planted in the last growing season 77=don't know	Source of seed planted for grain in this last planting season [1] Saved from own grain harvest [2] saved from own production of seeds [3] purchased as grain from others/market [4] purchased as seed from a farmer in the community [5] purchased as seed from the market [6] Given by NGO/Govt. program [99] Other (specify)	How would you rate the seed quality? [1] excellent [2] good [3] bad [77] don't know/ no opinion	Was this a traditional or an improved variety? [1] traditional/local [2] improved [77] don't know	How many years have you planted this variety on your farm? <i>(write approximate number of years, if farmer doesn't remember the exact #)</i>	When was the last time you obtained fresh seed of this variety from outside your own farm production? <i>(write approximate yyyy if don't remember)</i>	Source of seeds for grain production when you last obtained fresh seeds from outside [1] Given by family/friends [2] purchased as grain from others/market [3] purchased as seed from a farmer in the community [4] purchased as seed from the market [5] Given by NGO/Govt. program [99] Other (specify)

D. FARMER'S KNOWLEDGE, PERCEPTIONS, OPINIONS ON SEED TYPES, SEED QUALITY, AND INSECT DAMAGE

D1. Do you have easy access to good quality seeds of cowpea, If you wanted to purchase it? [1] Yes [2] No <D3	D2. Where is the nearest source of such good quality seed of cowpea? [1] from a seed producing farmer within or nearby village [2] from a seed trader/vendor in the market [3] Farmer organization (e.g. ASK) [99] Other, specify	D3. Do you have easy access to certified seeds of any crops? [1] Yes [2] No [88] don't know what is certified seed > D7	D4. Have you ever used or purchased certified seed of any crops? [1] Yes [2] No >D7	D5. For which crops you have used <i>certified seed</i> ? List up to 3 crops. See crop codes below 88=no more			D6. In your opinion what are the two main advantages of using certified seed (see code list)	
				a. Crop 1	b. Crop 2	c. Crop 3	a. Most important	b. 2 nd important

Code for D6
 1=high germination rate
 2=less disease and pest problem
 3=Uniformity in plant growth
 4=high quality grain at harvest
 5=high yield
 99=other (specify)
 88=have not used this type of seed; no more, don't know

D5 -- Crop Codes: [1] maize [2] millet [3] sorghum [4] rice [5] Cowpea [6] groundnut [7] soybean [8] cotton [9] vegetables [10] fruit crops [99] Other (sp.)

D7. Have you ever used hybrid seeds of any crop? [1] Yes [2] No	D8. What are the two main constraints you face in cowpea farming? 1-Land 6-seeds of preferred varieties not available 2-labour 7-insect and disease problem 3-cash constraint 8-no information or technical advice on farming practices 4-price too low 99-other(specify) 5-cannot sell the crop		D9. What is the current price of cowpea for consumption if you were to sell it? CFA/kg 9999-don't know	D10. What is the current price of cowpea for consumption if you were to buy it? CFA/kg 9999-don't know	D11. Have you ever stopped using a cowpea variety you liked because of lack of access /availability of seed? [1] Yes [2] No	D12. How often do you purchase or acquire fresh seed of cowpea from outside your farm for planting purpose? 1-every year <skip to D14) 2-every other year 3-every 3-5 years 4-5-10 years 5-more than 10 years 6-never <Ask D13, then skip to D15
	a. Constraint 1	b. Constraint 2				

D13. What would be the main reason you DON'T replace cowpea seed more often than indicated in D12? (multiple responses possible) 1-too expensive 5-I can maintain good quality seed myself 2-don't trust the seed from outside 6-Don't see any advantage/benefit in getting seed from outside more frequently 3-seed not available 7-seed comes in a large packet than I need 4-seed variety I like not available 99-Other (sp.)			D14. What would be the main reason you would replace/change your cowpea seed for grain production and not use your own saved seed? (multiple responses possible) 1-yield decline/drop 5-don't have seed storage facility 2-don't have any seed left (all sold or consumed) 6- when given by a govt. program or an NGO or a research organization 3-to try new variety 99-Other (sp.) 4-to get disease free planting material			D15. In total, how much did you spend on all the cowpea seed you purchased for planting in 2016 season? Write 0 if no seed purchased
a. Reason 1	b. Reason 2	c. Reason 3	a. Reason 1	b. Reason 2	c. Reason 3	

X3. Village Name: _____ X4. Village ID: _____ X5. Farmer Name: _____ X6. ID: _____

D16	D17	D18	D19	D20	D21	D22
In a typical year, what are the primary <u>insect pests</u> that damage your cowpea crop? [0] None => Go to E1 [1] Legume pod borer [2] Coreid pod-sucking bugs [3] Groundnut aphids [4] Thrips [77] Don't know [99] Other (specify)			Severity of the damage caused by these <u>insect pests in the last cowpea season (2016)?</u> [1] Not very severe [2] Somewhat severe [3] Very severe	Comparing this damage to the previous two years, the damage has: [1] Decreased>D21 [2] Same [3] Increased>D22 [77] Don't know	Main reason for decrease in damage: [1] I am applying more insecticides [2] I am applying different/more effective types of insecticides [3] There are now more beneficial insects [99] Other (specify) [77] Don't know	Main reason for increase in damage: [1] I am applying less insecticides [2] I am applying different type of insecticides [3] Change in weather pattern has increased insect population [99] Other (specify) [77] Don't know
First	Second	Third				

H. NETWORKING, ASSET OWNERSHIP, AND CHARACTERISTICS OF THE HOMESTEAD

H1. Do you belong to a farmer group/ organization? [1] Yes [2] No=>H3	H2. Are you a leader of any of these groups? [1] Yes [2] No	H3. Does the female head or spouse belong to any group or organization? [1] Yes [2] No	H4. Does the household own... [1] Yes [2] No					H5. How many heads of cattle or other large animals does your household own?	H6. Have you heard about the following organizations / programs / concepts? 1=Yes 2=No						
			a. Television	b. bed or a mattress	c. Scooter or a motorcycle	d. working Mobile Phones	e. Smart phone		a. INERA	b. Integrated Pest Management	c. Farmer Field School	d. Climate change	e. Inter-net	f. Face book	

H7. What is the main source of energy for lighting in your house? [1] Firewood or other [2] Candles, kerosene or LPG [3] Electricity, or solar energy	H8. Type of toilet facility used by the household? [1] No toilet facility(bush) or other [2] Non-ventilated pit Latrine [3] Ventilated pit latrine or flush to a septic tank	H9. When was the last time you interacted with an agricultural extension agent? (write the response as # of days/weeks or months ago 1=days 2=weeks 3=months 77=don't know or never d/w/m	H10. When it comes to adopting new technology, inputs or farming practices, which of the following best describes your behavior: (Read each one and let farmer select one option) 1 - I am one of the first ones to adopt NEW technologies 2 - I usually wait until a few farmers I know have used those inputs/technologies/practices, and then based on their experiences I make the decision 3 - I usually wait until most farmers in this village are already using those inputs/technologies/practices, and I am 100% sure that those technologies work 4 - I rarely change my farming practices as I am not comfortable doing new things
		#	

H11. What is the distance from your house to the nearest paved road (if the house is next to the paved road, write zero) _____ km	
H12. What is the distance from your house to the nearest market where you obtain agricultural inputs (e.g., fertilizer, pesticides, seeds, etc.) _____ km	

THANK YOU FOR YOUR PARTICIPATION IN THIS SURVEY

X5. Farmer Name: _____

X6. ID: _____

Seed Bidding Recording Sheet

<i>X0. Enumerator Name</i>		<i>X5. Farmer Name</i>	
<i>X3. Village name</i>		<i>X6. Farmer ID</i>	
<i>X4. Village ID</i>		<i>X1. Date of interview</i>	

Pre-test trial Experiment: With Soap

<i>Y1. Soap Bid Amount (FCFA)</i>	
<i>Y4</i>	
<i>Y2. Soap Random Price (FCFA)</i>	
<i>Y3. Did the farmer win the bid? (1=Yes if Y1 greater than Y2 2=No, otherwise)</i>	

If farmer wins -- Farmer gets 300 FCFA minus Random price plus soap

If farmer does not win -- Farmer gets 300 FCFA

Bidding Recording Sheet for Actual Willingness to pay for Seed Experiment

- Please show the samples of three seed types and explain the labels. Then ask the farmer Y5 and then Y6 (maximum willingness to pay for 1 kg of each type of seed)*

	<i>Certified Seed</i>	<i>Uncertified (Quality Declared Seed)</i>	<i>Own-saved or Recycled Seed</i>
<i>Y5. In your opinion, which is the BEST seed type (mark one)</i>	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>
<i>Y6. In your opinion, which is the WORST seed type (mark one)</i>	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>
<i>Y7. Bid Amount (CFA)</i>			

- Please show the pictures and explain the three plots. Then ask for the farmer's opinion on the best seed plot at the flowering stage and best seed plot at the harvest stage. Then ask for maximum willingness to pay for 1 kg of each type of seed indicated by a letter*

	<u><i>L</i></u>	<u><i>M</i></u>	<u><i>G</i></u>
<i>Y5. In your opinion, which is Best seed type (mark one)</i>	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>
<i>Y5.1 What is the MAIN reason for rating this plot the BEST? 1-plants look healthy; 2-pods have filled nicely; 3-higher yield; 4-good seed quality; 5-Other (specify)</i>			
<i>Y6. In your opinion, which is the WORST seed type (mark one)</i>	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>
<i>Y6.1. What is the MAIN reason for rating this plot the WORST? 1-plants look unhealthy; 2-pods have not filled nicely; 3-lower yield; 4-poor seed quality; 5-Other (specify)</i>			
<i>Y7. Bid Amount (CFA)</i>			

Y8. Seed type selected for auction (circle one) *Certified* *QDS* *Recycled* *L* *M* *G*

Y9. Record the Random Price drawn for the seed type selected: _____

Y10. Did the farmer win the bid? _____
(1=Yes if Y7 greater than Y9 for the selected seed type; 2=No, otherwise)

Calculator to determine the payoff amount

1. If Farmer WINS the seed (*Bid amount greater than randomly drawn price*)

Endowment	Random price (Y9)	Farmer gets 1500 F minus random price	Plus
1500 FCFA	_____FCFA	= _____FCFA	Seed

2. If Farmer DOES NOT win the seed (*Bid amount less than randomly drawn price*) Farmer gets: 1500 FCFA and NO SEED
